WHAT
As part of the Fairway Drive Grade Separation Project, the contractor will use heavy equipment to drive steel piles into the ground south of the Union Pacific railroad tracks along Fairway Drive near the Walnut Drive North intersection where the street is currently closed (see map above). This work is being done to construct the railroad bridge that will span across Fairway Drive at the railroad tracks and part of the retaining wall construction for the underpass. All work will occur within the current closed-off work area.

WHAT TO EXPECT
The work will require the use of heavy equipment, trucks, tractors and other construction vehicles. Noise, dust and vibration may be noticeable and will be monitored for compliance with applicable limits. No changes will be made to the current traffic pattern.

WHEN
Pile driving will commence on or after Friday, June 5, 2020 and will continue for approximately three weeks. Most work will be occur weekdays between 6:00 a.m. to 3 p.m. Weekend work is not anticipated.
